PROFESSIONAL SUMMARY

Technical Lead – Frontend with 6+ years of experience architecting scalable web applications using React.js, Next.js, TypeScript, and JavaScript. Experienced in leading frontend development for enterprise IoT platforms and building organization-wide design systems using Storybook and Atomic Design principles. Skilled in designing reusable component libraries, improving application performance, implementing responsive UI, mentoring developers, conducting code reviews, and collaborating with UX designers and cross-functional teams to deliver high-quality, maintainable software.

TECHNICAL SKILLS

FRONTEND

React.js

Next.js

TypeScript

JavaScript (ES6+)

Angular

Redux

STYLING & UI

Tailwind CSS

Bootstrap

HTML5

CSS3

Figma

BACKEND & DATA

Node.js

PHP

MySQL

PostgreSQL

Supabase

Socket.IO

TOOLING & DEVOPS

Git

GitHub

Docker

PNPM

CORE COMPETENCIES

Frontend Architecture

Design Systems

Atomic Design

Storybook

Component Libraries

Performance Optimization

Lighthouse Analysis

Code Splitting

Lazy Loading

REST API Integration

State Management

Responsive & Accessible UI

Code Reviews

Team Leadership & Mentoring

Agile / Scrum

Technical Lead

08/2025 – Present

HCLTech — Bangalore, India

Technical Lead – Frontend

01/2026 – Present

Epiroc (Client)

React.js TypeScript JavaScript (ES6+) Zustand Tailwind CSS 4 Storybook Figma HTML5 CSS3 MapLibre GL JS Lucide Icons

Git GitHub GitHub Copilot SVGO

Project 1 | Industrial IoT Platform

- Leading frontend development for a large-scale Industrial IoT platform used to monitor machine health, assets, operations, and fleet connectivity.
- Architecting and developing scalable, reusable, and high-performance React components for multiple business modules.
- Developing responsive dashboards, machine detail pages, asset management modules, operational insights, and live asset tracking features.
- Implemented an interactive Live Assets Map using MapLibre GL JS to visualize real-time machine locations and operational data.
- Collaborating with backend and full-stack engineers to integrate REST APIs and deliver seamless user experiences.
- Driving frontend architecture decisions, component reusability, state management, and performance optimization.
- Reviewing pull requests, maintaining coding standards, and ensuring high-quality, maintainable code.
- Assigning development tasks, providing technical guidance, and mentoring team members throughout the development lifecycle.
- Working closely with UX designers and product stakeholders to translate business requirements into intuitive user interfaces.

Project 2 | Organization Design System

- Leading the development of a centralized Design System to standardize UI components across organizational applications.
- Collaborating directly with two UX designers as the primary frontend contributor.
- Designing and implementing reusable components following Atomic Design Architecture.
- Building and documenting components using Storybook for improved developer adoption and consistency.
- Establishing design tokens, typography, spacing, color systems, and component guidelines.
- Creating highly configurable, accessible, and reusable UI components that accelerate application development.
- Optimizing SVG assets using SVGO and integrating Lucide Icons to maintain a lightweight and consistent visual language.
- Driving frontend best practices, scalability, and maintainability across multiple projects.

Senior Frontend Developer

08/2025 – 12/2025

PayPal (Client)

Next.js React.js TypeScript JavaScript Jest GitHub Git

- Gained hands-on exposure to Next.js and React architecture within PayPal's large-scale frontend ecosystem.
- Explored and understood Guest Checkout features, including form handling, validation logic, and user flow.
- Assisted in minor UI updates, bug fixes, and unit testing tasks using Jest.
- Collaborated with senior developers to understand code structure, best practices, and development workflows in an enterprise setup.

Senior Web Developer / Team Lead

10/2022 – 08/2025

Miles Education — Bangalore, India

Next.js React.js Angular TypeScript JavaScript Tailwind CSS Supabase PostgreSQL Pusher Socket.IO Git Docker

- Led and mentored a team of 10 developers, improving project efficiency, collaboration, and code quality.
- Designed and developed high-performance CRM, CMS, and LMS applications, enhancing scalability and maintainability.
- Architected authentication and real-time communication features using Pusher and Socket.IO.
- Collaborated with backend developers to integrate APIs and optimize data fetching and database performance (Supabase, PostgreSQL).
- Worked closely with UI/UX designers to deliver responsive, accessible, and visually engaging interfaces.
- Implemented agile best practices, ensuring timely delivery and continuous improvement across projects.
- Optimized performance by reducing unnecessary re-renders and applying lazy loading, improving load times by up to 40% and boosting engagement.
- Transitioned into a full-stack capacity, handling backend integrations and database optimization.

— PROFESSIONAL EXPERIENCE (CONTINUED)

Software Engineer

01/2020 – 10/2022

Get Nine Software — Hyderabad, India

PHP JavaScript React.js MySQL Node.js Bootstrap jQuery HTML CSS

- Progressed from intern to full-time developer within 3 months, demonstrating strong technical and problem-solving skills.
- Developed and maintained 10+ CMS, LMS, and website projects, ensuring high performance and scalability.
- Built and optimized RESTful APIs using PHP and MySQL, improving data retrieval efficiency.
- Implemented frontend state management using Redux, improving application responsiveness.
- Designed and developed reusable UI components, reducing development time for new features.
- Enhanced application security by implementing JWT-based authentication.
- Worked in an agile development environment, participating in sprints, daily stand-ups, and code reviews.

— EDUCATION

Bachelor of Technology (B.Tech), Electronics and Communication Engineering

2014 – 2019

Srialahasteeswara Institute of Technology

Srikalahasthi, India

Intermediate (MPC)

2012 – 2014

Narayana Jr College

Nellore, India

SSC (10th Grade)

2011 – 2012

Audisankara Techno School

Srikalahasthi, India

— CERTIFICATIONS

JavaScript (Basic & Intermediate) — HackerRank

React (Basic) — HackerRank

CSS (Basic) — HackerRank

— ACHIEVEMENTS

- Best Employee of the Year — 2020 & 2021, Get Nine Software Pvt Ltd.
- Mentored and trained junior developers, enhancing team productivity and knowledge-sharing at Miles Education.
- Promoted from intern to full-time engineer within 3 months at Get Nine Software.
